

LIVE 3D VIEW
OF THE SCHOOL BUS

NEW SAFE-T-SCOPE® 360HD

Rosco's Safe-T-Scope® 360HD is a commercial grade, surround view, aerial camera system that can withstand the rigors of a rough environment.

Safe-T-Scope 360HD has been developed to reduce collisions and increase safety. The 360HD system utilizes four 192° field-of-vision cameras to offer drivers 360° 3 dimensional views around the school bus. The enhanced 3D technology enables the driver to see views of the school bus, at all angles, covering crucial blind zones where visibility is otherwise lost.

THE SAFE-T-SCOPE® 360HD DELIVERS COVERAGE OF THE SCHOOL BUS WHERE IT'S NEEDED MOST

FEATURES

- 2D & 3D 360° views
- 16 different viewing options
- Full screen backup view for safe reversing
- Trigger options for automatic view changes & automatic power off delay
- Adjustable angles for optimal views
- Quick, automatic, self-calibration once initial setup is complete
- External keypad included for manual control when needed

BENEFITS

- Meets the requirements of FMVSS 111 rear visibility standards*
- Increase driver awareness
- Provides visual coverage of blind zones that are pertinent to large vehicles
- Reduce risk of collisions with Vulnerable Road Users (VRUs)
- Provide clear vision on sides of vehicles for narrow roadways
- Expanded side vision when reversing into a blind zone

** Systems must be installed properly for compliance.*
